EXPERIENCE

- 2019 **Career Profile Site**
ReactJS | JS | Sass | Bcrypt | Reactjs-Popup | Slick
<https://ethanwmitchell.com/>
- Front End site that shows off some of my skills and projects.
- Built it to be as simple as possible.
- Project details available as a clickable popup.
- 2018 **Travel Blog - DevMountain**
ReactJS | Redux | JS | Sass | Node | PostgreSQL | Bcrypt | REST
<https://blog.ethanwmitchell.com/#/>
- Full stack application that allows viewers to sign in and view blog posts and photos uploaded by the blog admin.
- Wireframed and designed all aspects of application.
- Utilized axios calls to the backend server to load and update data from the PostgreSQL database, including blog post data
- 2018 **FridgeRaiders - DevMountain**
ReactJS | Redux | JS | Sass | Node | PostgreSQL | Bcryptjs | REST | Axios | Express | React-router-dom | Sweetalert2 | Material-ui | massive
<https://fridge-raiders.site>
- Full stack application that allows users to search for recipes by entering ingredients they have or want to use.
- Responsibilities included backend and server functionality, api calls, creating database schemas and implementing top-level middleware.
- 2015-2017 **Technical Support Web Advisor - Bluehost**
- Resolved issues which arose with websites and CMS platforms
- Effectively provided support on a wide range of Wordpress and CMS issues.
- Resolved issues with ftp and the Bluehost cPanel
- 2014-2015 **Web Intern & Marketing Design - Western Standard**
- Updated and maintained the Western Standard website.
- Coded and designed marketing emails.
- Leveraged Microsoft and Adobe technologies.
